EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Response to Arguments

1. Applicant's arguments, see Amendment, filed 23 October 2003, with respect to claims 23-24, 26-27, and 29-30 have been fully considered and are persuasive.

Applicant's amendment rewriting the claims indicated as containing allowable subject matter into independent form overcomes the previous rejections. Thus, all previous objections and rejections have been withdrawn.

Allowable Subject Matter

2. Claims 13, 14, 17, 20, 23-24, 26-27, and 29-30 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter:

4. The closest prior art of record, Bran '278 and Manos, fail to teach each and every limitation of the instant invention. Specifically, the closest prior art of record fails to teach the apparatus, as claimed, having an extended roller with hollow extension, a transparent barrier, or a barrier with a thickness that is a multiple of one half of the wavelength of the sonic energy transmitted by the fragile component as sonic energy travels through the barrier material, which are disclosed as essential elements of claimed invention.
